PROFILE & OBJECTIVES

A skilled professional with expertise in Software Development, Penetration Testing, and Application Security Engineering. Proficient in securing applications, identifying vulnerabilities, and ensuring system integrity. Passionate about learning new technologies, sharing knowledge, and contributing to secure, innovative solutions while fostering growth and collaboration.

EMPLOYMENT HISTORY

77 Global Services Inc [Checkmarx] | Manila, PH | [January 2024 – Present]

- **Application Security**
  - Conducted comprehensive security assessments of application code using a variety of tools, techniques, and methodologies to identify vulnerabilities and weaknesses.
  - Performed in-depth code reviews to pinpoint security flaws, ensuring alignment with security best practices and industry standards.
  - Analyzed and remediated deviations from secure coding guidelines, minimizing risks and enhancing the overall security posture of applications.

International Container Terminal Services [ICTSI] | Manila, PH | [August 2022 – Present]

- **Penetration Tester**
  - Conducted comprehensive penetration testing on terminal applications to identify vulnerabilities and assess overall security posture.
  - Performed risk assessments and prioritized vulnerabilities based on potential impact to the organization, improving overall security resilience.
  - Delivered detailed reports and recommendations to stakeholders, ensuring continuous improvement in application security measures.

- **Cyber Security Consultant**
  - Provided expert insights and analysis on the latest vulnerabilities, staying up-to-date with emerging threats and security trends.
  - Delivered detailed reports and presentations to cross-functional teams, highlighting potential risks and offering actionable recommendations for mitigation.
  - Conducted live demonstrations and proof-of-concept (PoC) testing of vulnerabilities to raise awareness and improve team knowledge of attack vectors and defense strategies.

Racami LLC | Taguig, PH | [April 2019 – November 2023]
- **Software Developer**
    - Spearheaded front-end and back-end enhancements, ensuring seamless integration and optimal performance of the product.
    - Actively resolved bugs and implemented system improvements to enhance user experience and product stability.
    - Collaborated closely with clients to understand application requirements, delivering tailored solutions that met their needs and business goals.
    - Utilized agile methodologies to prioritize tasks and meet project deadlines efficiently.
